

# Aako EDTA 4Na 40%

## Description

Aako EDTA 4Na 40% is an aqueous solution of the well-known chelating agent. It is highly effective at low concentrations at a very wide acidic and alkaline pH range.

- Chemical name Ethylenediaminetetraacetate tetrasodium salt solution
- CAS number 64-02-8

## Aako EDTA 4Na 40%

### Typical properties

Appearance	Slightly Yellow Liquid
pH (1% solution)	11 - 12
Content EDTA-4Na	39.0 – 41.0 %
NTA	< 1%
Density	1.26 – 1.35 g/ml;25 °C
Chelate value	≥ 100 mg CaCO <sub>3</sub> /g

### Storage:

Shelf life of 24 months under appropriate conditions of storage.
