

AakoVit NIA Natural Non-Irritant Niacinamide

Description

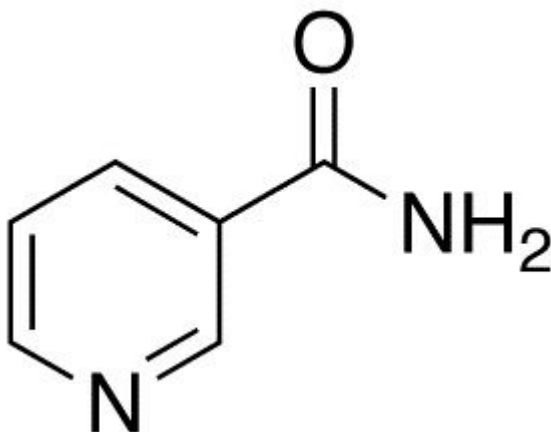

AakoVit NIA Natural Non-Irritant is the physiological form of Vitamin B3. Niacinamide is an important ingredient in the skin self defence system against UV-radiation damage and against water loss.

Niacinamide protects collagen and stimulates new collagen synthesis. Niacinamide also gives a reduction of skin pigmentation and reduces redness by reducing inflammation.

Ideal ingredient to add to day creams, sunscreen and after sun formulations at 0.3 to 20 %.

Contains less than 10 ppm residual nicotinic acid.

▪ Chemical names	nicotinic amide vitamin B3 3-Pyridinecarboxamide
▪ INCI name	Niacinamide
▪ CAS number	98-92-0

AakoVit NIA Natural Non-Irritant

Typical properties

Appearance	white powder
Melting point	128 - 131 °C
Loss on drying	< 0.5%
Residue on ignition	≤ 0.1 %
Nicotinic Acid	≤ 10 ppm
Assay	99 – 101 %

Storage:

Store under dry conditions in tightly closed dry containers at room temperature (1°C to 30°C). Retest date of 5 years under appropriate conditions of storage.
